Prentice Hall, 2001. Softcover. Book Condition: Neu. Gebraucht - Gut Unbenutzt. Schnelle Lieferung, Kartonverpackung. Abzugsfähige Rechnung. Bei Mehrfachbestellung werden die Versandkosten anteilig erstattet. - There are two main goals in writing this second edition:- To make close contact with current macroeconomic events. What makes macroeconomics exciting is the light it sheds on what is happening around the world, from the introduction of a new currency in Western Europe, to the elimination of budget deficits in the United States, to the transformation of Eastern Europe, to the crisis in Asia. These events and many more are described in the book, not in footnotes, but in detailed boxes, each box showing how macroeconomics can be used to get an understanding of what happened. My hope is that these boxes not only convey the fun of macroeconomics, but also reinforce the lessons from the models, making them more concrete, and easier to grasp. - To provide an integrated view of macroeconomics. The book is built around one underlying model, a model that concentrates on the implications of equilibrium conditions in three sets of markets: the goods market, financial markets, and the labor market. Depending on the issue at hand, the parts of the model relevant to the issue are developed in more detail while the others are simplified or left in the background. But the underlying model is always the same. My hope is that, as a result, readers of this book will see macroeconomics as a coherent whole, not as a collection of models drawn from a hat. The response to the first edition, in the United States and around the world, has shown that I share these goals with many instructors and students of macroeconomics. At the same time, feedback from teachers and students has also led me to make two important changes relative to the...
