

Health for Little Folks, Vol. 2 (Classic Reprint) (Paperback)

By Scientific Temperance Federation

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Health for Little Folks, Vol. 2 This little volume, as its title indicates, is designed as a first book in the study of such laws of practical hygiene as pupils of primary grades can comprehend, and as will lead to the formation of habits essential to a healthy, happy, and useful life. Formerly these topics, under the title of physiology, were studied chiefly by advanced pupils; but recent widespread legislation has wisely changed this custom. Because right or wrong habits that may affect a lifetime are early formed, the child should as early learn which to choose and why. Because only comparatively few pupils ever reach the High School, the reason is obvious why the laws so generally specify that this study shall be pursued by all pupils in all schools under State or National control.
