UGANDA: MALARIA OPERATIONAL PLAN FY 2014 (PAPERBACK)

Createspace, United States, 2014. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.Malaria prevention and control is a major foreign assistance objective of the U.S. Government (USG). In May 2009, President Barack Obama announced the Global Health Initiative (GHI), a comprehensive effort to reduce the burden of disease and promote healthy communities and families around the world. Through the GHI, the United States will help partner countries improve health outcomes, with a particular focus on improving the health of women, newborns and children. The President's Malaria Initiative (PMI) is a core component of the GHI, along with HIV/AIDS, tuberculosis, maternal and child health, and nutrition. PMI was launched in June 2005 as a 5-year, \$1.2 billion initiative to rapidly scale up malaria prevention and treatment interventions and reduce malaria-related mortality by 50 in 15 high-burden countries in sub-Saharan Africa. With passage of the Lantos-Hyde Act, the PMI goal was adjusted to halve the burden of malaria in 70 percent of the at-risk populations of sub-Saharan Africa, thereby removing malaria as a major public health problem and one of the two objectives for sub-Saharan Africa is to reduce malaria-related mortality by 70 in the original 15 countries by the end of 2015, of which Uganda is one. Malaria is Uganda's leading cause of morbidity and mortality. According to the Ministry of Health (MOH), malaria accounts for 25-40 of outpatient visits to health facilities and is responsible for nearly half of inpatient pediatric deaths. Results of the 2011 Demographic and Health Survey (DHS) show an improvement over the 2009 Malaria Indicator Survey (MIS) with 60 of households nationwide owning at least one insecticide-treated net (ITN); 47 of pregnant women and 43 of children under five having slept under an ITN...
